

Create a voice assistant

Below are six frames with underneath each one a description when it will be shown. Draw and color them as you wish.

When you're done, visit www.home-assistant.io/draw-assist to complete your project.

Ready to listen to the wake word

Example: 

Listening to the command

Example: 

Processing the command

Example: 

Replying to the command

Example: 

Error

Example: 

Initializing (visible during startup)

Example:
